

SKILL BUILDING

TB VACCINE ADVOCACY FELLOWSHIP

APPLY UNTIL **Saturday, 31 December 2022**

The TB Vaccine Advocacy Roadmap (TB Vax ARM) and Stop TB Partnership Working Group on New TB Vaccines are pleased to announce a new advocacy fellowship program, set to take place in February 2023 in the run up to World TB Day. The program will convene **six fellows representing TB affected communities, advocates, and early career researchers from high TB burden countries** for a skill building and co-learning program. The goal of the program is to help **cultivate a new generation of TB vaccine R&D advocates and stimulate more diverse advocacy efforts** for TB vaccine R&D ahead of the UNHLM on TB in September 2023 and beyond.

Starting during the **first week of February**, the fellowship will feature **approximately 15 hours of guided and self-guided working sessions** over the course of **four weeks**, ending in the first week of March. Colleagues from the TB Vax ARM network will provide the fellows with learning moments throughout and short pre-session assignments. Fellows will work together **to develop an actionable campaign that can be implemented for World TB Day** and hone their skills to develop and contribute to future advocacy campaigns.

Who can apply?

- Do you want to strengthen your knowledge and understanding of TB vaccine R&D?
- Are you interested in developing your advocacy skills in different formats and across stakeholder groups?
- Are you a member of an affected community, an advocate, or an Early Career Researcher, and from a high TB burden country?

You can apply for the fellowship at newtbvaccines.org/advocacy-fellowship/

- The application should take no more than 30-45 minutes!
- Short-listed candidates will be asked to participate in a brief interview over Zoom.

Any questions? Email Shaun Palmer at spalmer@iavi.org.

APPLY NOW

What is the TB Vax ARM?

- An informal global network of TB advocates
- Dedicated to mobilizing support and resources for TB vaccine R&D
- Engaged in political advocacy, including the [G20 Open Letter](#)

What will fellows receive?

- A stipend (fixed payment)
- An opportunity to build their social media and advocacy skills
- Advocacy opportunities via the TB Vax ARM and the WGNV
